

Simmons UNIVERSITY

Dining Services

OUR DINING COMMITMENT

Nothing is more important to Simmons Dining than food safety and the customer experience we deliver. We take all customer concerns about food quality very seriously and investigate every incident that is brought to our attention. We encourage anyone with a concern about their dining experience to contact one of our managers on duty in the dining location, or one of our associates, so we can provide immediate attention.

Heather Lupis
General Manager

We welcome all comments and suggestions.
